

Riverton Primary School Business Plan

An Independent Public School

2023 – 2025

RIVERTON
PRIMARY SCHOOL

INDEPENDENT PUBLIC SCHOOL

Vision And Mission

Our School

is situated in the heart of Riverton. Located near the river with spacious grounds, surrounded by trees. Riverton Primary School has embraced the idea that the school is the heart of the community, and we welcome the wider school community onto our Campus. We encourage our community to play an active part in the education and development of the students who attend our School. This wider community involvement assists in providing a rich learning environment for the students on the road to achieving their academic, social and emotional potential.

Vision

Riverton Primary Campus is an inclusive community where students work collaboratively in a rich learning environment to achieve their academic, social and emotional potential.

Mission

At Riverton Primary School we value a positive and inclusive community where we encourage our staff, students, and families to work collaboratively. We provide a rich learning environment that supports the development of our students, with a focus on the students as a "whole child" and their capacity to flourish and achieve their academic, social and emotional potential.

Our Values

- Inclusion

We include, acknowledge and encourage all students from a variety of cultural and language backgrounds and academic ability. We celebrate diversity and difference across our community.

- Excellence

We encourage excellence by supporting each student to persevere when challenged and strive to be the best they can be.

- Collaboration

We value collaboration within our community. Students and staff work collaboratively with each other to achieve positive outcomes both inside and outside classrooms.

- Innovation

Innovation is supported in our teaching and learning programs with highly effective teaching practice actively encouraged and positive risk taking from students supported.

- Positivity

The physical and mental health of our students and staff members underpins our successful and effective learning programs. We value and develop the “whole” child and prioritise their wellbeing and health.

Our School Values provide a strong foundation for building social responsibility and a sense of belonging through collaboration between student, family, school and the wider community.

Our Approach

In collaboration with our School Board and Staff, we review our School Business Plan every three years. This assists us in clearly setting out our priorities for the next three years, with the accompanying objectives, strategies and targets for each priority.

The priority areas are based on systemic and school-based data collection and analysis from across the school. We believe that these priority areas are critical to the success of our students and our school. Integral to this process is what we offer in each of the priority areas, how we monitor our performance and understand and learn from our performance to continuously improve.

• Priority Areas

- High Quality Teaching and Leadership
- Successful Students—Reading
- Successful Students—Mathematics (Problem Solving)
- Technology
- Health and Well being
- Partnerships

Strengthen the capacity of teachers & leaders	High Quality Teaching & Leadership Health & Wellbeing Technology
Use evidence to drive decision making at every level	High Quality Teaching
Partner with families, community agencies & others to engage students	Relationships & Partnerships

Our Priority Areas and Aims

- **High Quality Teaching & Leadership**

The school is a professional learning community with high quality teaching across the curriculum in all classrooms and opportunities for distributed leadership.

- **Successful Students – Reading**

Students develop the skills to read fluently, and effectively for understanding.

- **Successful Students – Numeracy: Mental Maths & the Language of Problem Solving**

Students can effectively solve problems, use the language of mathematics and utilise a variety of mental maths strategies.

- **Successful Students – Technology**

Students and staff effectively use technology in all learning programs across the campus with a STEM approach integrated across the school.

- **Health & Wellbeing**

Students and staff members have improved mental and physical health and wellbeing in a safe and inclusive environment.

- **Relationships & Partnerships**

Strong, respectful and effective relationships and partnerships between staff members, the community and students underpin and support effective teaching and learning and improved student outcomes.
